

After School Club.

My name is Beverley Jarrett and I have been a primary school teacher for more than thirty years. Last September I felt ready to embrace something different in my career and I set up an After School Club at Stratford St Mary Primary School between the hours of 3.15 and 6pm.

The club activities are very much child-led.

We start by sitting together and sharing how the day has been and enjoying a snack and a drink. The children then choose what they would like to do. This may involve us all playing a game together or several different activities taking place at the same time. A great favourite is art and craft activities that involve a lot of glitter!

The activities to choose from also include watching a dvd, access to school computer, lego, jigsaws reading and help with homework.

Whatever a child enjoys doing, I will try to include it in our activities.

We have an ongoing Monopoly game that has lasted for months because a group of children love this game.

When the weather is suitable, we also make use of the lovely school grounds to play outdoor games.

Many of the children come to the club after their school clubs have finished, some are regulars and some just join us occasionally. I aim to be as flexible as I can.

Children aged 5 to 8 years are able to come to After School Club for up to two hours and children over the age of 8 are able to stay up to three hours.

The costing for this is outlined below.

If you think that you would like your child/children to attend please contact me via my email address and I will forward you a registration pack and full details.

Everyone is very welcome.

Many Thanks

Beverley Jarrett

	3.15-4.00pm	4.00-5.00pm	5.00-6.00pm
