

### **Swans Class (Year 5)**

#### **Reading**

- Please read your reading book and others that you may have in the house. You can also find some good books through [www.oxfordowl.co.uk](http://www.oxfordowl.co.uk)
- The class login is: Stratford Swans (space included)
- Password: Mr Bassett (space included)
- You can access the books via the e-books section. There are also activities you can complete on each book.

#### **Maths**

- Please complete the maths sheets provided:
- There are 5x 'White Rose Maths' lesson worksheets to complete. A video tutorial for each lesson worksheet is available here: <https://whiterosemaths.com/homelearning/year-5/>. Please watch the videos before attempting the worksheets. *Answer sheets are attached and provided for all 5 lessons, focusing on decimals.*
- There is also a 'Spring Maths Activity Booklet' to complete. *Answer sheets are attached.*
- You can also complete some maths activities/games through the suggested websites: [www.ttrockstars.com](http://www.ttrockstars.com); [www.prodigygame.com](http://www.prodigygame.com)

#### **English / Literacy**

- Spelling Shed will be updated regularly with spellings to learn and also games and activities to complete.
- Please complete the SPaG (Spelling and Grammar) sheets provided – 'The Mystery of the Stolen Space Suit'. *Answer sheets are attached.*
- Your topic for this half term is 'Earth and Space'. Please complete a piece of writing associated with this topic. It could be a story, newspaper report, diary entry or a non-fiction text. The Literacy focus recently has been punctuating dialogue correctly; please try including some if possible.
- For example – Take a picture of the stars in the night sky. Could you write a piece of non-fiction writing detailing which different constellations you can see? Could you imagine you are an astronaut heading into space and write diary entries?

#### **Topic Work / Other Work**

- If you get to spend some time on a device or computer, try to use one of the websites (on the attached sheet) to help you with your learning.
- Please try to not spend too much time in front of computer or electronic device; so each school day, please try and complete one of the suggestions from the attached sheet.

### **Other Ideas**

Find a recipe and follow the instructions to cook something (with an adult).	Draw/paint a picture when sitting from somewhere in the house – could be the garden from your window or the house from the garden.	Tidy your room or spend 20 minutes helping to tidy the house.
Everyday, do a task to help someone else; this could be your brother or sister or your mum or dad.	Spend 20 minutes in the morning and 20 minutes in the afternoon doing some physical exercise.	Do something each day to make someone else happy. For example, ring a relative or send them a letter. Make sure you ask your adult first.
Read your book in an unusual place.	Try and be as independent as you can – this will of course depend on your age!	Please complete some 'home learning' work each day.

# The Mystery of the Stolen Space Suit

A serious crime has been committed before the launch of the space shuttle to Mars. It is the night before the rocket is due to launch and everything has been prepared and packed. When the astronauts went in to do their final checks, one of them found that their space suit was missing and saw a remarkably similar one appear on a well-known auction site!

As the Detective Chief Inspector, it is your job to find out who has stolen the suit. Your officers have taken down the names and descriptions of the thirty astronauts who were training during the day.

There are also five clues that have been left. To crack the case, you will need to solve each clue and check the information against the list of names.

Good luck!

# Clue 1

## Space Sentences

These space sentences have been written with parenthesis. Check which ones have the correct punctuation (it could be commas, brackets or dashes).

If there are more ticks, then the culprit is male. If there are more crosses, then the culprit is female.

Space Sentence	✓ or X
The astronauts, who come from all over the world have prepared for this mission for months.	
"I have waited for this chance for years," said one of the astronauts – she was actually one of the older astronauts.	
Unfortunately, the space food (most of the astronauts dislike it) has disappeared from the storage cupboard.	
Mission control, which is located in Paris, has delayed the take-off.	
Tom Peek – one of the British astronauts has eaten all of the space food.	
Luckily, the Space Agency stored extra food in a safe place they kept this a secret.	
Finally, the spare food (mainly baked beans) has been packed into the rocket.	
The rocket, with its extra food stores, has taken off safely.	

There were \_\_\_\_\_ crosses and \_\_\_\_\_ ticks. There were more \_\_\_\_\_ so the culprit is male/female.

## Clue 2

### Space Suit Suffix Sort-Out!

With all the chaos this police investigation has caused, the uniforms have been muddled up! In order to help prepare for takeoff, you need to match the nouns and adjectives to the correct suffix to form a verb. Whichever suffix has the most matching words will reveal the colour of the culprit's uniform.

Remember: sometimes the root word will need to be altered before the suffix is added.

The suffix with the most root words is \_\_\_\_\_, so the culprit's uniform is \_\_\_\_\_.

## Clue 3

### Super Space Synonyms

While they wait for the mystery to be solved, the astronauts have been thinking of exciting synonyms for different words. Whichever nationality of astronauts have thought of the most synonyms for their word will reveal the nationality of the culprit.

diminutive

turbo

steady

zippy

unhurried

minuscule

speedy

nanoscopic

colossal

mountainous

swift

gargantuan

**big**

**small**

**slow**

**fast**

The nationality of the astronauts who found the most synonyms was \_\_\_\_\_.

## Clue 4

### Avoid the Active Asteroids!

Find your way through this vortex of sentences by following the pathway of passive sentences (up, down, left and right) and avoiding the active asteroids.

At the end of your journey you will discover whether the culprit wears glasses or not.

#### Start

The space suit was taken by one of the astronauts.	The mission was delayed by the incident.	Rocket Red ate the space food.	The delayed mission devastated Orion Orbit.
The incident delayed the mission.	The culprit will be discovered by the Detective Chief Inspector.	One of the astronauts took the space suit.	Esther Earthshine lost the navy blue uniforms.
The Detective Chief Inspector will discover the culprit.	The space food was eaten by Rocket Red.	Carina Cosmo is the oldest astronaut on the mission.	Lyra Light spotted the space suit on a well-known auction site.
Apollo Atom is the youngest person to ever join astronaut training.	Orion Orbit was devastated by the delayed mission.	The navy blue uniforms were lost by Esther Earthshine.	Juno Jupiter has been on five missions in the past.
Norma Nebular packed the silver uniforms.	During the mission, the astronauts will receive regular messages from home.	The space suit was spotted on a well-known auction site by Lyra Light.	The rocket will orbit the planet for 40 days and nights.

The culprit wears/does not wear glasses.

## Clue 5

### Hyphens Go into Hyperdrive

The astronauts have been writing about their time in space. They have tried to use hyphenated words but some have got confused. Check these sentences to find which ones are correct. If they are, give them a tick. If they are incorrect, give them a cross.

If you have more ticks, then the culprit is more than 30 years old. If you have more crosses, then the culprit is less than 30 years old.

Space Sentence	✓ or X
During my first mission, we saw thirty-one large asteroids one day.	
Take off is the most dangerous part of any space mission.	
It can be difficult not to be bad-tempered when spending a lot of time in space with the same people.	
On my last mission, I worked with the all knowing Belinda Bright.	
As we headed back home, I was hopeful that our reentry into the Earth's atmosphere would go smoothly.	
I was sent on a spacewalk to re-cover some exposed electrical wires.	
Before any mission, it is important to re-search the planet you will be visiting.	
On the space station, we re-cycle all of our water through a complicated system.	

There were \_\_\_\_\_ crosses and \_\_\_\_\_ ticks. There were more \_\_\_\_\_ so the culprit is less than/more than 30 years old.

**Return to the list of suspects and work out who the culprit is!**

## Clue 1: Space Sentences

Space Sentence	✓ or X
The astronauts, who come from all over the world have prepared for this mission for months.	X
"I have waited for this chance for years," said one of the astronauts – she was actually one of the older astronauts.	✓
Unfortunately, the space food (most of the astronauts dislike it) has disappeared from the storage cupboard.	✓
Mission control, which is located in Paris, has delayed the take-off.	✓
Tom Peek – one of the British astronauts has eaten all of the space food.	X
Luckily, the Space Agency stored extra food in a safe place they kept this a secret.	X
Finally, the spare food (mainly baked beans) has been packed into the rocket.	✓
The rocket, with its extra food stores, has taken off safely.	✓

Answer to clue 1: There were **3** crosses and **5** ticks. There were more ticks so the culprit is **male**.

## Clue 2: Space Suit Suffix Sort-Out!

pollen (pollinate)	solid (solidify)	vandal (vandalise)
elastic (elasticate)	test (testify)	fertile (fertilise)
alien (alienate)	intense (intensify)	advert (advertise)
		final (finalise)

Answer to clue 2: The suffix with the most root words is **ise**, so the culprit's uniform is **silver**.

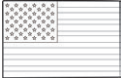

## Clue 3: Super Space Synonyms

**big**

colossal

mountainous

gargantuan

**small**

diminutive

minuscule

nanoscopic

**slow**

unhurried

steady

# Spring Flags

These flags have been designed on centimetre square grids.

Colour the flags according to the fractions:

$$\text{Red} = \frac{1}{5} \quad \underline{10}$$

$$\text{Green} = \frac{3}{10} \quad \underline{15}$$

$$\text{Blue} = \frac{1}{2} \quad \underline{25}$$

What percentage is green? 30%.

What percentage is blue? 50%.

$$\text{Red} = \frac{1}{4} \quad \underline{12}$$

$$\text{Green} = \frac{1}{3} \quad \underline{16}$$

$$\text{Blue} = \frac{1}{8} \quad \underline{6}$$

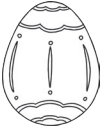

What fraction is white?  $\frac{14}{48}$  or  $\frac{7}{24}$

# Order Egg Fractions

Here are some patterned eggs each representing a number:

Use the code to find the 3 fractions in each line, and order from smallest to greatest.

			$\frac{1}{3}, \frac{5}{12}, \frac{3}{6}$
			
			$\frac{3}{8}, \frac{1}{2}, \frac{9}{16}$
			
			$\frac{3}{20}, \frac{1}{5}, \frac{3}{10}$
			
			$\frac{3}{4}, \frac{7}{8}, \frac{15}{16}$
			

# Spring Improper and Mixed Fractions

Match the improper and proper fractions to draw a spring picture.

# Multiply Egg Fractions

<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>	<b>7</b>	<b>8</b>

<b>9</b>	<b>10</b>	<b>11</b>	<b>12</b>	<b>15</b>	<b>16</b>	<b>20</b>

Use the egg code above and calculate the following multiplications, giving your answer as a mixed number.

<hr/>	<b>×</b>		$\frac{3}{4} \times 4 = \frac{12}{4} = 3$
<hr/>	<b>×</b>		$\frac{5}{3} \times 2 = \frac{10}{3} = 3\frac{1}{3}$
<hr/>	<b>×</b>		$\frac{12}{5} \times 3 = \frac{36}{5} = 7\frac{1}{5}$
<hr/>	<b>×</b>		$3\frac{3}{8} \times 5 = \frac{27}{8} \times 5$ $= \frac{135}{8} = 16\frac{7}{8}$
<hr/>	<b>×</b>		$1\frac{1}{3} \times 16 = \frac{4}{3} \times 16$ $= \frac{64}{3} = 21\frac{1}{3}$

# Spring Fraction Riddles

I buy some bags of eggs that each contain 24 eggs.

I use the eggs from  $\frac{3}{4}$  of the bags and hide them in the playground.

The children find all of the eggs and share them out equally. Each child gets one egg.

There are  $\frac{1}{6}$  of the hidden eggs left over.

The children come from 2 classes of 30 children.

How many bags of eggs did I buy?

4 bags.

I buy some bunches of tulips of different colours.

$\frac{1}{6}$  of the bunches are red tulips.

$\frac{1}{4}$  of the bunches are yellow tulips.

$\frac{1}{3}$  of the bunches are blue tulips.

There are 6 other bunches.

How many bunches of tulips did I buy?

24 bunches.

# Converting Equivalent Fractions Board Game

## Instructions:

- Choose a space to start from and place your counter on it.
- Roll a dice and move clockwise that number of spaces.
- Find an equivalent fraction on the flowers and cover it over.
- If you land on a square where the answer has already been covered, miss your go.
- The winner is the player who covers the last flower.

# Spring Fraction Riddles

I buy some bags of eggs that each contain 24 eggs.

I use the eggs from  $\frac{3}{4}$  of the bags and hide them in the playground.

The children find all of the eggs and share them out equally. Each child gets one egg.

There are  $\frac{1}{6}$  of the hidden eggs left over.

The children come from 2 classes of 30 children.

How many bags of eggs did I buy?

I buy some bunches of tulips of different colours.

$\frac{1}{6}$  of the bunches are red tulips.

$\frac{1}{4}$  of the bunches are yellow tulips.

$\frac{1}{3}$  of the bunches are blue tulips.

There are 6 other bunches.
