Let's make a change for the future

Dear Parents,

You may have seen the near signage on the main gate and lamp posts outside the school. We were given these as part of the 'Let's make a change for the future.' The pop up outdoor signage is all around our county towns and near primary schools.

The aim is simple - to encourage more people to get out and about by walking, cycling and using public transport - whilst observing social distancing and Covid-19 guidelines of course.

We can do this by swapping short car journeys for walking or cycling on the commute to work, taking the children to school, visiting the shops, and for longer journeys combine active travel with public transport.

If you can make a change to the way you travel please do.

Thank you,

Amber, Gabi, Isabelle and Lottie.
