

Question - Can we investigate the human form?

What I should already know : Children can safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function. Children can use what they have learnt about media and materials in original ways, thinking about uses and purposes. They can represent their own ideas, thoughts and feelings through design and technology, art, music, dance, role play and stories. The children have weaved with hot colours.
