Swans Summer 1 (B)

<u>PSHE - Managing Safety & Risks</u> <u>How can we keep ourselves safe?</u>

What I should already know: Children should be able to describe some physical and emotional reactions to risk; escribe how friends might influence them in risky situations; explain strategies for staying safer near roads and water; describe ways they could safely act in an emergency; carry out a simple first aid procedure and explain ways to prevent accidents in familiar settings.

Enquiry Questions:	<u>Key Vocabulary</u>	Pupils will
	Allergic reaction - where your body reacts to something that's normally harmless like	<u>,</u>
When might it be good for my	pollen, dust or ascertain foods.	
mental health for me to take a	<u>Anxious - f</u> eeling or showing worry, nervousness, or unease about something	 describe some benefits and
risk?	<u>Emotional /physical and social risks - physical risk: falling off your bike knocked down</u>	consequences of taking
	by a car, <u>social risk</u> : getting into an argument, losing a friend, getting told off and	risks, in familiar and
What are the possible benefits	e <u>motional risk</u> : feeling upset, crying, feeling anxious, alone.	
·	<u>Epipen -</u> a medical injecting device that delivers a dose of epinephrine, used to treat	unfamiliar contexts
and consequences of taking	severe allergic reactions, including anaphylaxis.	• describe ways their levels of
physical, emotional and social	<u>First aid -</u> help given to a sick or injured person until full medical treatment is available.	
risks?	Mental Health - a person's emotional, psychological, and social well-being.	responsibility are changing
	<u>Recovery position</u> - a position used in first aid to prevent choking in unconscious patients,	 describe some first aid
Can I carry out basic first aid in	in which the body is placed facing downwards and slightly to the side, supported by the	procedures to be used in
common situations, including head	bent limbs.	
injuries?	<u>Resilient</u> - able to withstand or recover quickly from difficult conditions.	familiar and
	<u>Risk -</u> a situation involving exposure to danger.	unfamiliar situations.
First Aid workshop	Safety measure - a measure taken to increase or ensure safety or protection from danger
